[linkedin.com/in/amandafults/](https://www.linkedin.com/in/amandafults/)

Strategic marketing operations leader with over 13 years of experience driving revenue through MarTech optimization and cross-functional alignment. Expert in bridging the gap between technical execution and actionable marketing analytics, with deep experience in multi-touch attribution, funnel velocity mapping, and data visualization. Proven track record of architecting global campaign taxonomies and complex lead routing across Marketo, Salesforce, LeanData, and a host of additional marketing technology solutions to deliver the granular insights needed to exceed organizational KPIs and drive meaningful impact.

Skills/Tools

- Marketing Automation: Marketo, Eloqua
- CRM: Salesforce.com, Custom CRMs
- Integration: Zapier, Workato, Dell Boomi
- Lead Routing: LeanData, RingLead, Marketo
- Events: Cvent, Mobly, Zoom Webinar, GoToWebinar
- Funnel Analysis: Salesforce reporting & DOMO
- ABM: 6Sense
- Direct Mail: Sendoso, Tremendous, PFL
- Coding: HTML, CSS, SQL
- Web CMS: Webflow, WordPress
- Project Management: Asana, Jira, Wrike, Basecamp, ClickUp, LucidChart
- Deduping, Verification, QA, Data Enrichment: DataGroomr, BriteVerify, ZeroBounce, Kickbox, Litmus, EmailOnAcid, ZoomInfo, ALN
- Sales Tools: Gong, Groove, Outreach, SalesLoft
- AI Tools: Qualified, Gemini, ChatGPT, Claude

Experience

Entrata | December 2023 – Current

Head of Marketing Operations

- Lead the Marketing Operations department as the primary Marketo Admin and MarTech stack owner, overseeing system architecture and cross-functional operational strategy
- Architected and executed a full Marketo instance revamp, resolving critical integration user issues and deploying reCAPTCHA across all web forms to eliminate spam
- Established a global campaign taxonomy, standardized folder structures, and developed scalable program templates to ensure consistent Salesforce campaign attribution
- Operationalized DataGroomr to automate deduplication, achieving and maintaining a lead-to-lead duplicate rate of <1% across the database
- Deployed real-time email verification via BriteVerify across all Marketo forms, successfully reducing lead-source noise and improving database hygiene at the point of entry
- Modernized Marketo email and landing page templates in collaboration with design vendors to improve mobile responsiveness and brand alignment
- Implemented LeanData with complex routing logic, resulting in a 98% decrease in routing errors
- Deployed AI-driven conversational chatbot (Qualified) to automate demo conversions via interactive dialogue and form-fill logic, generating 1.5M in pipeline

- Architected a bi-directional integration between Cvent and Marketo to automate the capture and routing of 100% of organization-wide conference leads
- Vetted and implemented Mobly for automated tradeshow lead capture, establishing standardized routing and follow-up protocols for tradeshow booth leads
- Built and validated comprehensive Demand Gen and BDR dashboards in DOMO
- Operationalized Zapier process using AI to automate multiple manual email lead sources
- Partnered with RevOps to lead Salesforce optimizations and critical tool migrations, including the successful replacement of Groove with Gong and ongoing data provider vendor evaluations
- Launched Vendor Access program, including the strategic acquisition and configuration of an in-house HubSpot instance to streamline vendor data flow for our clients
- Assisted in vendor selection for the replacement of ClickUp to Asana and built project management workflows, reducing project turnaround by 20% via optimized processes
- Automated a complex, manual partner lead-capture process for the VP of Corporate Development via a combination of Slack, Marketo, and Salesforce
- Created and oversaw QA processes for all marketing campaigns, ensuring technical and grammatical accuracy

MX | August 2020 - December 2023

Director, Marketing Operations | August 2022 – December 2023

- Led the Marketing Operations function, serving as the primary MarTech architect and stack owner for a high-growth fintech organization
- Revamped the Marketo instance by establishing a unified global program and campaign hierarchy, improving system performance and reporting scalability
- Developed a comprehensive Marketing Analytics dashboard in partnership with BI engineering to provide executive-level visibility into funnel performance
- Collaborated with RevOps to standardize Salesforce data hygiene and unified lead-management processes across departments

Senior Manager, Marketing Operations | August 2020 – August 2022

- Operationalized LeanData from the ground up, architecting all lead routing logic and increasing speed-to-lead by 75%
- Automated lead acquisition for digital advertising by integrating LinkedIn Lead Gen Forms with Marketo, ensuring immediate sales follow-up.
- Integrated Cvent & Marketo to manage yearly conference, including building events app, registration process, and running the check-in desk for 800+ prospects, clients, and vendors

VitalSmarts | June 2013 - August 2020

Manager, Marketing Operations | December 2017 – August 2020

- Led the Marketing Operations department, managing cross-functional alignment between Sales, Marketing, and Analytics to optimize processes, data, and reporting
- Worked cross-functionally with sales, sales ops, marketing, and business analytics teams to ensure proper attribution, clear and accurate lead handoff, and optimization of funnel velocity
- Created and maintained the integrity of the global campaign taxonomy to enhance lead assignment, as well as marketing reports and attribution

- Governed the lead-flow architecture from Marketo to Salesforce, refining synchronization logic to prevent data decay and routing delays
- Optimized data integrity for a 1.5M record database via automated segmentation, normalization, and enrichment workflows
- Governed quality assurance (QA) for all marketing programs and assets, ensuring 100% brand consistency and technical accuracy
- Designed, built, and maintained the Cvent API and lead flow for 200+ event programs each year
- Established comprehensive data privacy programs (GDPR, CAN-SPAM, CASL, CCPA) to ensure global marketing compliance
- Built Marketo programs/SFDC campaigns for events, nurtures, newsletters, product marketing, regional marketing, and website campaigns to track and increase conversion on marketing and sales initiatives

Marketing Automation Manager | April 2015 – December 2017

- Executed email marketing campaigns to meet business goals for multiple products and verticals
- Collaborated with sales to create and execute on account-based marketing campaigns
- Set up and executed nurture campaigns for multiple lead sources and marketing channels
- Routinely audited email lists and templates to help maintain optimal performance
- Built Marketo programs and Salesforce campaigns to track marketing initiatives
- Analyzed campaigns and ran A/B tests to make sure performance is optimized
- Ran reports and prepared analysis for key stakeholders using Marketo
- Cleaned and uploaded lead lists and processed data from various marketing events

Content Marketing Manager | June 2013 – December 2017

- Built and curated content for the weekly *Crucial Skills Newsletter* for over 300K subscribers
- Reported on newsletter stats using Eloqua and Google Analytics
- Edited and posted weekly and monthly *Crucial Skills* blog posts using WordPress
- Created and sent weekly social media posts using Facebook, Twitter, Pinterest, and Google+
- Curated content from all departments to create, edit, and deliver a monthly internal newsletter
- Compiled, edited, and regularly updated 100+ trainer bios using Adobe InDesign and Basecamp
- Managed international publishers' relationships for 50+ translations of four *NYT* bestselling books
- Co-edited *The Gray Fedora* by Kerry Patterson, published in 2015
